

# Alcohol ter-butílico

Synonyms:

2-Méthyl-2-propanol , alcool tert-butylique

| (CH <sub>3</sub> ) <sub>3</sub> COH | Classification                  | Danger                                                                                                                                                                     |
|-------------------------------------|---------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular weight                    | 74.12 ONU                       | 1120   |
| CAS                                 | 75-65-0 Transport hazard class: | 3                                                                                                                                                                          |
| EEC-N:                              | 200-889-7 Packing               | II                                                                                                                                                                         |

Alcohol ter-butílico

> RPE - Para análisis - ACS - Reag. Ph.Eur. -  
Reag. USP

Grado Analítico

|                        |                                |      |
